DISCOVER THE PORTER MACHINE DIFFERENCE!

For over 30 years, Porter Machine Incorporated has been a highly recognized supplier of contract machining services to customers throughout the Northeast. We serve a variety of industries including aerospace, medical, construction, fire safety, printing, oil refinery and flow equipment. Our reputation for quality products and reliable service has introduced us to many new and exciting markets in all types of scientific and industrial pursuits.

As a progressive company, we have invested in industry leading standards and technology. Porter Machine has been ISO 9001:2015 certified since 2012 to help ensure that customers get consistent, high quality products and services. Our facility is equipped with Exact JobBOSS® Shop Management; a single integrated shop floor control solution that offers complete visibility, access, and job control. Our engineering department utilizes Solidworks® 3D CAD software together with iMachining® to provide accurate and timely response to customer requirements.

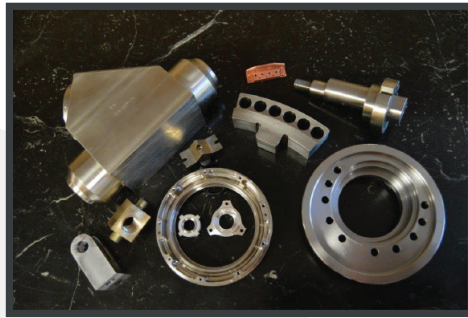

The experienced team at Porter Machine is prepared to address the needs of your organization. We will diligently provide your company, whether large or small, with excellent service, quality products and the lowest possible prices.

CNC Turning Centers

Mori Seiki SL-200

- Machining Diameter – 16"
- Thru Spindle Diameter – 2.5"
- Max Length - 21"

Mori Seiki CL-25B 3 Machining Centers in House

- Machining Diameter – 17.7"
- Thru Spindle Diameter – 3.5"
- Max Length - 18"

Mori Seiki SL-25-1000

- Machining Diameter – 15"
- Thru Spindle – 2.75"
- Max Length -42"

Mori Seiki SL-25-500

- Machining Diameter – 15"
- Thru Spindle Diameter – 2.75"
- Max Length - 21"

Eurotech 735SLY 2 Machining Centers in House

- Dual Spindle Single Turret 6 Axis
- Y Axis - 5"
- Machining Diameter – 12.6"
- Thru Spindle – 2.75"
- Max Length - 21"

Software

- Solidworks 3D CAD
- SolidCAM with imachining 3D
- Exact Software JobBOSS
- Control Point Vending Machine for tooling

CNC Vertical Machining Centers

MoriSeiki NVX 5000-100

- X – Y – Z Stroke 41.33" x 20.86" x 20.07"
- 40hp with thru coolant
- 12,000 RPM High Speed Spindle

Brother S700X1 2 Machining Centers in House

- X – Y – Z Stroke 27.5" x 15.75" x 11.8"
- 4 Axis Nikken Head

Matsuura VX1000

- X – Y – Z Stroke 40.5" x 24" x 24"
- 15,000 RPM Spindle with Coolant Thru
- 4 Axis Nikken Head

Other Equipment

- K O Lee Grinding Machine
- Reid Surface Grinder
- Brown & Sharpe 18x10 Micromaster Surface Grinder
- Jones and Shipman 1311 ID/OD Grinder
- Mastercut S-300HB Cutoff Saw
- SUNNEN MBB-1600 Honing Machine
- Colchester 12" x 46" Manual Lathe

Inspection Equipment

Hexagon GlobalCMM

- Fully Automated
- Touch Probe Accurate within .0002"
- Scan Probe Accurate within .0001"

Brown & Sharpe MicroVal 454 1T

- X – Y – Z Stroke 18" x 20" x 16"

Mitutoyo Model PH350 Optical Comparator

- Brown & Sharpe Micro-Hite 600 Height Gage
- Mantis Elite Vision Engineering Digital Cam With a 10x Magnification Lens
